

SB-47 STABILIZING BRACE INSTALLATION INSTRUCTIONS

Parts and Tools Required (See Illustration #1):

- SB-47 Stabilizing Brace
- AK47 pistol
- Screwdriver or Allen key for pistol grip screw

Illustration #1

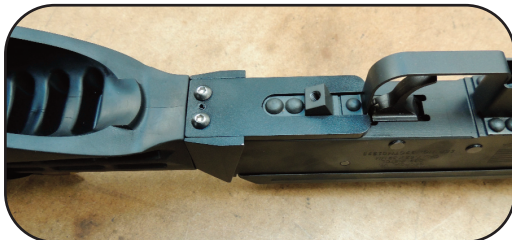

1. Using a screwdriver or Allen key, remove the pistol grip from your pistol. (See Illustration #2.)

Illustration #2

2. Align the mounting bracket for the Stabilizing Brace with the pistol grip nut. (See Illustration #3.)

Illustration #3

3. Re-install the pistol grip. (See Illustration #4.)

Illustration #4

4. Congratulations! You've successfully installed your SB-47 Stabilizing Brace!
