CENTURY  
ARMS

**THE WORLD ASKED FOR IT AND CENTURY ARMS DELIVERED!** Introducing the all new BFT47 rifle! This All-American rifle directly answers the requests of the American consumer with the additions to the already dependable platform of a bulged/forged front trunion, enhanced safety and bolt hold open, optics rail, cleaning rod , and bayonet lug, all based on a 1.5mm stamped receiver, and complimented with high quality American maple furniture. This new flagship rifle of Century Arms is truly the culmination of American engineering at its finest.

# VSKA

**VSKA** is the ultimate example of American technology meeting Combloc ingenuity. Re-engineered with critical components using machined S7 tool steel, a material so highly regarded for its ability to withstand heavy duty action that it's used in excavator teeth and jackhammer tips!

The VSKA rifle features an all new bolt carrier, front trunnion, and feed ramp machined from S7 tool steel and specially heat treated for maximum durability. Additionally, the VSKA features a carburized 4140 steel bolt, a chrome-moly 4150 barrel, and sports the RAK-1 Enhanced Trigger Group for an impressive trigger pull. Along with a manganese-phosphate finish, the classic AK elegance is preserved with an American maple wood buttstock and forend.

## FEATURES

- RAK-1 enhanced trigger group
- Carburized 4140 steel bolt
- Chrome-moly 4150 barrel, 1:10 twist, concentric LH 14x1 metric thread
- 1.5 mm stamped receiver
- Heat treated S7 steel bolt carrier, front trunnion, and feed ramp
- Includes one US PALM 30rd mag

**THE AP5** or “Apparatus Pistol”, is a roller delayed blowback firearm based and built off of the original and historic design from the 1970’s. The roller-lock platform has been widely respected as the preeminent design for over 50 years. Adopted for use across the globe, no other firearm of its type has been more successful. These firearms which are imported from the MKE manufacturing facility in Turkey are available in a full sized model designated simply as the AP5, a midsize version as the AP5-P, and a fully concealable version as the AP5-M.

Each model of the AP5 includes standard: a rugged plastic carry case, two (2) 30-round magazines, a factory cleaning kit, factory picatinny style optics mount, factory sling, and a gun lock. All AP5 firearms are chambered in 9x19 mm and have a cold hammer forged barrel with a 1:9.8” twist. The AP5 and AP5-P barrel each have a 3-lug quick attachment and 1/2x28 threaded end for suppressor mounting options.

#### FEATURES

- 9x19mm Parabellum (Luger)
- Semi-Automatic; Roller-Lock, Delayed Blowback Action
- Rear Drum Sight, Fixed Front Sight
- Cold Hammer Forged Chrome Molybdenum Vanadium
- 3-lug quick attachment; 1/2x28 threading
- Scope rail mounts.
- Wide variety of after market parts
